- **Time/Date Stamp with Tamper-Resistant Frame Counter:** Helps to preserve integrity of recorded video evidence for court purposes.
- **Built-In 2.4" Color TFT/LCD Monitor:** Allows operator to monitor (watch and listen) to video during and after the recording process.
- **Portable/Compact Battery Powered Design:** Device is lightweight, easily fits into a pocket, and can be operated for approx. 3 hours from internal rechargeable battery (unlimited operating time can be achieved when connected to external power supply).
- **Compatibility:** Device can be connected to and record data from virtually any audio/video data source equipped with RCA component outputs (surveillance cameras, body-worn video cameras, wireless audio/video receivers, etc...).
- **Easy to Use:** User-friendly design/interface allows device to be set-up and operate in under a minute.
- **Optional Button Camera Accessory:** Allows device to also be used as a concealable/body worn or stationary surveillance camera system.
- **Optional Extended Life Battery:** Increases device operating time to (7) hours when fully charged.
