## Private Branch Exchange Cellular

If you are seeking the ***MOST*** affordable, feature-enriched and portable solution to provide your team with the ability monitor and/or record communications taking place over virtually any type of telecom system/network the ***Private Branch Exchange Cellular (PBXC™)*** is your answer!

### TELECOM SYSTEM/ NETWORK CONNECTIVITY FEATURES:

Residential Analog Landline Telephone Systems

Commercial PBX/Digital Landline Telephone Systems

Wireless Cellular Networks via Cell Phone Handset Bluetooth\*

Wireless Cellular Networks via Cell Phone Handset Aux. Jack

PBXC Base Unit  
(Front View)

PBXC Base Unit  
(Rear View)

With dimensions of 9.00 X 6.10 X 3.35" and weighing less than 2 lbs. the **PBXC** is highly mobile. In the event that external power is ***NOT*** available, the **PBXC** may be powered/operated for 7 to 8 hours by installing (2) common 9v alkaline batteries. The **PBXC** is also equipped with a "Low Battery" LED indicator and supports battery "hot swap" which allows the operator to continue to use the device while a battery is being replaced.

The **PBXC** also supports an "External Audio Source Line In" function to broadcast audio from a Digital Voice Recorder (DVR) to the subject. To use this function, disconnect the headset's plug from the "Negotiator Mic" jack, connect the DVR and press play.
