

NiteLite™

THROWABLE ILLUMINATION DEVICES

DEPLOY DOWN-RANGE LIGHTING WITHOUT REVEALING YOUR POSITION & MORE!

NiteLite™ Throwable Illumination Devices were developed to increase safety by providing officers with the ability to deploy down-range, omni-directional lighting without revealing their position.

The portable and virtually indestructible (standard one-year warranty) design of the NiteLite™ allows the device to be easily carried and quickly thrown into a pitch black or low-light and potentially dangerous environment. Once deployed, the NiteLite™ may be remotely activated/deactivated wirelessly by pressing the on/off button located on the key-chain FOB provided with the device.

SPECIFICATIONS

- Width:** 2.80" (71mm)
- Diameter:** 3.22" (82mm)
- Mass:** 10oz (28g)
- Design Type:** Dodecahedron (12-sided)
- Ingress Protection:** IP67
- Yield Strength:** 3,000 PSI
- Continuous Run-Time:** 1 - 1.5 hours. (approx.)*
- Charger Input:** USB-A
- Charger Output:** 5vdc
- Battery Type/Capacity:** Li-ion Polymer/ 2500mAh
- Charge Time:** 6 hours (approx.)
- Charge Cycle Qty:** 500 (approx.)
- Lamp Type:** LED (1,500 Lumens)
- Lamp Lifetime:** >20,000 hours
- Color Temperature:** 6500K**
